1 Pop Up Tent

Single Pop Up Tent

2 Shelf, ladder and misc

Shelf and contents with the wood ladder

3 4 Clamps

Used to hold pieces of material, typically wood, together while glue dries or during assembly.

4 PL Ballast

Electrical device that specifically powers and regulates the current for compact fluorescent lamps

5 Sign Ballasts

Devices that powers the fluorescent lamps in indoor and outdoor signs.

6 LED Ballast

Electronic component that powers LED lights

7 Neon Transformers

Neon Transformer's that supply power to neon signs.

8 Electrical Boxes

Protective enclosures designed to house and conceal vulnerable electrical wiring connections.

9 Aluminum Conduit Flex

Electrical conduit used to protect electrical conductors and cables.

10 Harnesses

Various harnesses used to secure cargo or equipment during transport.

10a 2 Pallet Racks

16 ft and 8 ft Pallet Rack

10b 16 ft Pallet Rack

16ft Pallet Rack

11 3 Shelves of Fasteners

Screws, bolts, standoffs, and clips, used to attach signs to various surfaces. (front and back of selected shelves)

12 Paint Cabinet

A hazardous paint cabinet that's specialized, fire-resistant container used to safely store flammable and combustible paints to prevent fires and contain spills.

13 Yard Tools

Rakes shovel's, etc.

14 Tools and supply Lot

Hard Hats, Toggle Belts, Tools, and Supplies.

15 Tool Lot

Tool Box, caulk, and carious tools.

16 Portable Foldable Work Bench

A portable and sturdy work surface for various projects.

<u>29</u>	<u>Toyota Forklift</u>
Helpful with lifting and moving heavy materials safely and efficiently in industrial, commercial, and construction settings. Toyota Forklift operates as it should! Vin -	
<u>30</u>	<u>Forklift Fork Extensions</u>
Length -	
<u>31</u>	<u>Lot Of Straps and Misc.</u>
Assortment of tools and shop supplies.	
<u>32</u>	<u>Substrate Cutter</u>
Multi-material cutter used for cutting a wide range of materials, or substrates, used in sign-making and graphic arts.	
<u>32a</u>	<u>Radial Arm Saw</u>
Cutting machine used primarily for woodworking.	
<u>34</u>	<u>Industrial Grinder</u>
Industrial grinding machine. It is used for a variety of tasks, primarily in metalworking and fabrication.	
<u>35</u>	<u>Industrial Grinder</u>
Industrial grinding machine. It is used for a variety of tasks, primarily in metalworking and fabrication.	
<u>36</u>	<u>Reel</u>
It is used to hold and dispense steel or plastic strapping, which is used for bundling items or securing loads on pallets.	
<u>37</u>	<u>Wire Rack</u>
Wire rack designed to hold spools of electrical wire.	
<u>38</u>	<u>Miller Welder</u>
Miller Thunderbolt Welder used for stick welding.	
<u>39</u>	<u>Whitney Jensen Sheet Metal Slitter and Cutter</u>
Used for cutting various materials.	
<u>40</u>	<u>Channel Letter Bending Machine</u>
Precisely bends metal or acrylic strips (3 part machine)	
<u>41</u>	<u>Piston Air Compressor</u>
Used to convert power into potential energy stored in pressurized air.	
<u>42</u>	<u>Bulb Crusher</u>
All-in-One Bulb Crusher that does CFL's, Straight Fluorescents, U-Shaped Fluorescents and HID's (up to 6"), or basically all types of fluorescent bulbs including mercury vapor and high pressure sodium.	
<u>43</u>	<u>Bulb Crusher</u>
All-in-One Bulb Crusher that does CFL's, Straight Fluorescents, U-Shaped Fluorescents and HID's (up to 6"), or basically all types of fluorescent bulbs including mercury vapor and high pressure sodium.	
<u>44</u>	<u>Whitney Punch Press</u>
Used for punching holes in sheet metal.	
<u>45</u>	<u>Welding Set</u>
Used for fabrication and welding tasks. A welding table provides a stable, flat surface for a variety of metalworking and fabrication projects.	

<u>46</u>	<u>Welding Hose</u>
Used to transport gases for welding, cutting, and other metalworking processes.	
<u>47</u>	<u>Welding Hose</u>
Used to transport gases for welding, cutting, and other metalworking processes.	
<u>48</u>	<u>Welding Hose</u>
Used to transport gases for welding, cutting, and other metalworking processes.	
<u>49</u>	<u>Welding Hose</u>
Used to transport gases for welding, cutting, and other metalworking processes.	
<u>50</u>	<u>Industrial Bench Grinder</u>
Used for grinding, shaping, and sharpening various metal objects.	
<u>51</u>	<u>Drytac Laminator</u>
A machine that uses rollers to apply uniform pressure to adhesives and over-laminating films.	
<u>52</u>	<u>Roland Vinyl Cutter</u>
Large format vinyl cutter, also known as a cutting plotter or sign maker. It is designed to cut various materials for creating signs, graphics, and other applications.	
<u>53</u>	<u>Channel Letter Brake</u>
This type of machine is a specialized bending brake designed for forming sheet metal strips that already have one or more bent flanges or seams. It is commonly used to create the sides of channel letters for signs.	
<u>54</u>	<u>Chanel Letter Brake</u>
This type of machine is a specialized bending brake designed for forming sheet metal strips that already have one or more bent flanges or seams. It is commonly used to create the sides of channel letters for signs.	
<u>55</u>	<u>Tennsmith Sheet Metal Brake</u>
This type of machine is used for bending and forming sheet metal and other materials. Its purpose is to create precise bends and folds in a wide range of materials.	
<u>56</u>	<u>10ft Tennsmith Brake</u>
Used to bend sheet metal into various shapes and angles.	
<u>57</u>	<u>10ft Tennesmith Brake</u>
Used to bend sheet metal into various shapes and angles.	
<u>58</u>	<u>Miller Welder</u>
Wire-feed gas MIG welder used for various applications, including light industrial use, aluminum fabrication, and auto or marine repair.	
<u>59</u>	<u>2 Shop Vacs</u>
Clean up that mess with these two chop vacs!	
<u>60</u>	<u>3 Shop Lights</u>
Light up that dark space when working on delicate or dangerous projects.	
<u>61</u>	<u>Water Pump</u>
Designed to handle water containing a high amount of solids and debris, such as mud, leaves, and small rocks, without clogging.	
<u>62</u>	<u>Twin-tank air compressor.</u>
A portable unit with a balanced design and a handle for easy carrying. The twin-tank configuration provides a higher capacity and more power for the tools.	
<u>63</u>	<u>Pressure Washer</u>
Piece of equipment that uses a high-pressure stream of water to clean surfaces.	
<u>64</u>	<u>Pressure Washer</u>
Piece of equipment that uses a high-pressure stream of water to clean surfaces.	
<u>65</u>	<u>Pump Hose</u>
Robust pump hose used to transfer liquids, such as water, from one location to another using a pump.	
<u>66</u>	<u>Air Compressor</u>
Converts power into potential energy stored in pressurized air.	
<u>67</u>	<u>Misc. Tools w/Cart</u>
Sledge hammer, cart, misc., etc.	
<u>68</u>	<u>Large Pallet Rack</u>
Perfect for holding heavy pallets and other shop equipment.	
<u>69</u>	<u>Pallet Jack</u>
Used for lifting, lowering, and moving pallets and other heavy loads over short distances.	
<u>70</u>	<u>Office Dividers</u>

<u>70a</u>	<u>Tarps</u>
Used for a variety of protective and covering purposes	
<u>71</u>	<u>Wheel Barrel</u>
Groundwork Wheel Barrel used for hauling various material around.	
<u>72</u>	<u>Creeper Shop Chair</u>
A 2-in-1 device that can be used as a rolling creeper or a seat.	
<u>73</u>	<u>Gas Cans</u>
Multiple gas cans used for holding gasoline.	
<u>74</u>	<u>Utility Cart</u>
Designed for hauling heavy loads and can be used for various outdoor projects like gardening, landscaping, and construction.	
<u>75</u>	<u>Atlas Copco FX4 refrigerated compressed air dryer</u>
This type of machine is used to remove moisture from a compressed air system to prevent condensation and corrosion.	
<u>76</u>	<u>Hazard Can</u>
Safety container designed for the temporary, fire-safe storage of materials that may be subject to spontaneous combustion, such as oily rags, solvent rags, and shavings.	
<u>77</u>	<u>12ft Work Table on Wheels</u>
<u>78</u>	<u>Magnetic Floor Sweeper</u>
Used to pick up ferrous metal debris, such as nails, screws, and other metal shavings, from floors in workshops, garages, and construction sites.	
<u>79</u>	<u>2 Dollys</u>
Used to haul large items around easily.	
<u>80</u>	<u>Folded Portable Tripod Stands</u>
Used for supporting lights or other equipment at a job site.	
<u>81</u>	<u>Welding Cart</u>
Used to transport and store gas cylinders and other welding equipment.	
<u>82</u>	<u>Shop Fan</u>
Cooling a large area such as a work shop.	
<u>83</u>	<u>12ft Work Table</u>
Perfect for those large shop projects and heavy tools.	
<u>84</u>	<u>aluminum composite pane (ACP)</u>
Commonly used for architectural cladding, signage, and other construction and design applications.	
<u>85</u>	<u>10ft Work Bench</u>
<u>86</u>	<u>Shelf with Misc. Shop Supplies</u>
<u>87</u>	<u>Wooden Work Bench</u>
<u>88</u>	<u>Mitsubishi Forklift</u>
This unit has not been run for awhile and may need repairs before it could be operational. Recommend previewing in person.	
<u>90</u>	<u>Forklift Extension Forks</u>
Nice pair of 8 foot extensions for a forklift.	
<u>90a</u>	<u>Wooden Work Table</u>
Large work table that'll provide you the space to get your project done.	
<u>91</u>	<u>CNC router</u>
Computer-controlled cutting machine that can be used for a variety of tasks, including cutting, carving, and engraving materials such as wood, plastic, and non-ferrous metals.	
<u>91a</u>	<u>Metals and Rebar</u>
Steel bars used as a tension device in reinforced concrete and masonry structures to strengthen and hold the concrete in compression.	
<u>92</u>	<u>Misc. Shop Supplies</u>
Tarp, Step Stool, etc.	
<u>93</u>	<u>Extra Long Work Table</u>
Huge work table that can be used for a large variety of shop projects.	
<u>94</u>	<u>10ft Work Table</u>
Work table that can be used for a large variety of shop projects.	
<u>95</u>	<u>Table</u>
Can be used for various shop projects.	

<u>96</u>	<u>6 Tools</u>
Sander, drill, etc. Tools to get the job done.	
<u>97</u>	<u>Bosch rotary hammer drill</u>
Designed for heavy-duty drilling and chiseling tasks.	
<u>98</u>	<u>Kango 810 rotary hammer</u>
This rotary hammer is a heavy-duty power tool used for drilling and chiseling into hard materials like concrete, brick, and stone.	
<u>99</u>	<u>Milwaukee Falcon Rotary Hammer</u>
Designed for heavy-duty drilling and light demolition tasks.	
<u>100</u>	<u>Angle Grinders/Sanders/Heat Guns Etc.</u>
Various tools to get the job done!	
<u>101</u>	<u>2 Grinder, 1 Router, Etc.</u>
Various tools including grinders, a router, and other tools.	
<u>102</u>	<u>4 Sanders</u>
These tools use sandpaper (a sanding belt) to quickly remove material from a surface.	
<u>103</u>	<u>3 Drills</u>
They are designed to drill holes into hard materials like concrete, brick, and masonry.	
<u>104</u>	<u>3 Circular Saw</u>
These are power saws that use a toothed or abrasive disc to cut different materials, primarily wood.	
<u>105</u>	<u>SDS-plus Bulldog Xtreme Rotary Hammer</u>
Multifunction mode selector for rotary hammer, rotation-only, and hammer-only functions.	
<u>106</u>	<u>DeWalt Circular Saw</u>
For making making straight cuts in lumber, plywood, and other wood products.	
<u>107</u>	<u>Bosch Drill</u>
Variable speed motor and is known for its power-to-weight ratio. It is suitable for various drilling tasks for both DIY enthusiasts and professionals.	
<u>108</u>	<u>4 Tools w/Mini Tool Box</u>
DEWALT jigsaw, air impact wrench, and other tools.	
<u>109</u>	<u>Milwaukee Super Sawzall Reciprocating Saw</u>
A primary tool for carpenters, woodworkers, and DIY enthusiasts for making straight cuts in lumber, plywood, and other wood products.	
<u>110</u>	<u>Milwaukee Rotary Drill</u>
It is used for tasks that require more power than a standard hammer drill, such as drilling holes for anchors, breaking up concrete, or chiseling.	
<u>111</u>	<u>Mega Wrenches</u>
Heavy-duty application wrenches and tools.	
<u>112</u>	<u>6 Tools</u>
Chainsaw, a handsaw, scraper, a bolt cutter, etc.	
<u>113</u>	<u>Mechanics Tool Set</u>
For various fastening and repair projects, typically for automotive and home use.	
<u>114</u>	<u>Bits and Blades</u>
Various drill bits and blades.	
<u>115</u>	<u>Milwaukee Bits</u>
Drill bits used to create holes by removing material from surfaces like wood, metal, or plastic.	
<u>116</u>	<u>DeWalt Bits</u>
Drill bits used to create holes by removing material from surfaces like wood, metal, or plastic.	
<u>118</u>	<u>Toolbox w/tools</u>
Toolbox containing a variety of miscellaneous tools, such as wrenches, sockets, and other hardware.	
<u>119</u>	<u>Tap And Die Set/Brass Fittings</u>
Assortment of brass fittings used to connect, terminate, control, or change the direction of pipes and tubing in plumbing or other fluid transfer systems. Taps and dies are tools used to create or repair screw threads.	
<u>120</u>	<u>miscellaneous tools</u>
A large orange hook A variety of screwdrivers Wrenches and allen keys Drill bits Pliers A hammer Etc.	
<u>121</u>	<u>Bag of Tools and Misc.</u>
Assorted bag of tools and misc.	

<u>121a</u>	<u>Metal Toolbox w/Variety of miscellaneous tools</u>
Allen keys, Drive Ratchet, etc.	
<u>122</u>	<u>Belt and Disc Sander</u>
The continuous sanding belt is useful for smoothing flat surfaces and edges. The circular sanding disc is effective for working on convex surfaces and creating beveled angles.	
<u>123</u>	<u>Lot Of Grips</u>
For holding workpieces together or to a workbench.	
<u>124</u>	<u>Crimpling Pliers Tool Lot</u>
Collection of tools, including a large pair of crimping pliers and two rollers used for applying roofing or flooring material.	
<u>125</u>	<u>Chicago Electric MIG-100 welder</u>
Welding machine that uses flux-cored wire for welding.	
<u>126</u>	<u>Sliding Compound Miter Saw</u>
This type of saw is a power tool used for making precise crosscuts and miter cuts on a workpiece.	
<u>126a</u>	<u>Miami Vice Grip</u>
Used to secure an object to allow work to be performed on it.	
<u>127</u>	<u>Craftsman miter saw</u>
A power tool used to make precise, angled cuts in wood and other materials.	
<u>128</u>	<u>Central Machinery 9-inch Bench Top Band Saw</u>
A band saw is a power tool used for cutting various materials, such as wood, metal, or plastic. This tool is designed for making fast, precise cuts in materials up to 9 inches wide and is suitable for both hardwood and softwood.	
<u>129</u>	<u>Bench Grinder</u>
Can be used for sharpening tools such as chisels, drill bits, lawnmower blades and and cleaning objects with a wire brush wheel.	
<u>130</u>	<u>DoALL C-69 horizontal band saw</u>
A type of cutting machine used in industrial and fabrication applications to slice through materials like metal, wood, or plastic.	
<u>131</u>	<u>Vinyl</u>
Various types of vinyl and misc.	
<u>132</u>	<u>Work Table w/misc.</u>
Large wooden work table with misc. items.	
<u>133</u>	<u>Fluorescent Bulbs</u>
Rafter full of many fluorescent bulbs.	
<u>134</u>	<u>Vinyl and Pattern Paper</u>
Lot of multiple vinyl and pattern paper.	
<u>135</u>	<u>Lot Of Office Supplies</u>
3 Desk, 3 Wooden filing cabinets, etc.	
<u>136</u>	<u>6 Filing Cabinets</u>
Filing cabinets perfect for filing all those really important papers.	
<u>137</u>	<u>4 Chairs and 2 Desk</u>
(just the 4 chairs and desk) Toms office	
<u>138</u>	<u>Road Lights w/Carboard Boxes (2 Shelves)</u>
High mast lights for roadside lights, and cardboard boxes.	
<u>140</u>	<u>2 Portable Channel Signs</u>
2 Nice 8 foot channel signs.	
<u>141</u>	<u>Microwave and fridge</u>
Working microwave and refrigerator	
<u>142</u>	<u>Stud Welder and cart</u>
<u>143</u>	<u>Sono Tube Concrete Tubes</u>
The whole lot	
<u>144</u>	<u>Office Furniture</u>
2 Desks and file cabinet (Ash Office)	
<u>145</u>	<u>Reception Desk</u>
L shaped reception desk	

146 Desk and 3 file cabinets

(Debs office)
